

MARC WOODYARD

System & Network Administrator

<https://marcwoodyard.com>
marc.woodyard@fleep.io

I'm a system and network administrator with a passion for cybersecurity, networking, and servers. I enjoy setting up and managing servers, web applications, hypervisors, firewalls, and anything else you can install on a server. High attention to detail, great listener, determined, reliable, curious, and a team player.

Skills

- Highly skilled in creating **WordPress** websites, and **Java** programs.
- Passionate about **Server Virtualization** (ESXi, Hyper V, Xen Server), **Cyber Security**, **Server Rack Organization**, and **Cable Management**.
- Experienced with **Active Directory**, **RAID Arrays**, **Windows Server**, **Linux Servers** (Ubuntu, CentOS, Debian, Arch), **Dell PowerEdge Servers**, **Webhosting** (HTML & WordPress websites, SAAS Applications), **IAAS Applications** (DigitalOcean, Amazon Web Services), **PC Deployment Solutions** (Windows Deployment Services, Microsoft Deployment Toolkit, and Symantec Ghost).
- Proficient with **Batch** & **PowerShell** scripting, **Managed Switches**, and **MySQL**.
- Skilled in creating **System Documentation**, **HTML Websites**, **Web stores** with WordPress, and **Style Guides**
- Knowledgeable about **Docker**, **Raspberry Pi**, **CCTV Cameras**, **Security/Fire Alarm Systems**.
